

Public Lecture: 29th of June 2010

Campus Science City

HPH G1 18.00 - 19.15

7th International Conference on
Physical Modelling in Geotechnics
June 28th – July 1st 2010, Zurich

The importance of geotechnical physical modelling in solving infrastructure problems caused by climate change

Dr. R.S. Steedman FREng

Flooding New Orleans: modelling the Hurricane Katrina disaster

Introduced by Prof. S.M. Springman OBE FREng
Head of Institute for Geotechnical Engineering

with a brief review celebrating
75 years of soil mechanics at ETH
